Peebles, of Simi Valley, California, Phap Nguyen, of Reseda, California, and Mark Kampe, of Los Angeles, California, Assignors, have invented a new and useful NON-VOLATILE MEMORY WITH NETWORK FAIL-OVER, for which an application for United States Letters Patent was filed on April 14, 2004, under Serial No. 10/824,852; and

WHEREAS, Assignors believe themselves to be the original, first and joint inventors of the invention disclosed and claimed in the application for Letters Patent; and

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all
